

Strongest all-KO/metabolism contrasts — external group named at bar tip

Marker and pathway/category

K03388: hdrA2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K03388: hdrA2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K03388: hdrA2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K03388: hdrA2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K03388: hdrA2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K03389: hdrB2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K03389: hdrB2 | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K14126: mvhA | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K14126: mvhA | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K14126: mvhA | Methanogenesis (methanol;
acetate; methylamine; dimethylamine;
trimethylamine; CO2)
K00185: dmsC | Anaerobic oxidative
phosphorylation
K00381: cysI | Sulfur metabolism:
Assimilatory sulfate reduction
K00366: nirA | Nitrogen: Assimilatory
nitrate reduction (reduction pathway)
K00363: nirD | Nitrogen: Assimilatory
nitrate reduction (reduction pathway)
K00392: sir | Sulfur metabolism:
Assimilatory sulfate reduction
K00185: dmsC | Anaerobic oxidative
phosphorylation
K00372: nasA | Nitrogen: Assimilatory
nitrate reduction (reduction pathway)
K00184: dmsB | Anaerobic oxidative
phosphorylation
K00184: dmsB | Anaerobic oxidative
phosphorylation
K00185: dmsC | Anaerobic oxidative
phosphorylation

Descriptive log2 ratio: Amazonian lateritic lakes vs selected external group/layer

Legend: green bars = markers with higher mean in Amazonian lateritic lakes; red bars = markers with higher mean in the named external ST8 group/layer. Method: $\log_2((\text{mean Amazonian lake count} + 1)/(\text{mean external group count} + 1))$. Input: Supplementary Table 8 derived contrast CSV.
